

CoCoInfo-based email Newsletters

CoCoInfo is developing email-based newsletters.

Subs

Print your email newsletter

To print your email newsletter, do the following two steps:

1. Ensure the email is shown in HTML view

Thunderbird on Windows

- Click **View** on the menu bar: this opens a sub-menu
- Click **Message body as**: gives three options
- Click **Original HTML**: shows the email newsletter in HTML

Other email clients on other Operating Systems

Of course you can contribute some text here yourself!
You need to be registered with CoCoInfo for doing this.

2. Use the Print facility of your Email Client

Thunderbird on Windows

- Click **File** on the menu bar: this opens a sub-menu
- Click **Print**:

Other email clients on other Operating Systems

Generally they follow the same idea as described above under 'Thunderbird on Windows'.

If needed, contact JanPieter to sort this out.

Of course you can contribute some text here yourself!

You need to be registered with CoCoInfo for doing this.
