

Intuitive Contract

This is one of the **session contracts**. The **counsellor** can offer Intuitive suggestions based on any insight in what is going on for the **client**. These suggestions are offered at all opportunities: e.g.

- client cues are fed back continuously (e.g. by mirroring);
- physical suggestions (e.g. rearranging or shaking limbs, pressure to key points).

The client is in this contract free to ignore any suggestion, like in the Normal Contract.

This contract is regularly confused with an **Intensive Contract**.
